RE: Erie County Sewer District No. 4
Aurora North Pump Station Elimination Sanitary Sewer
Contract 40RB
Construction Activity Notice

Dear Property Owner/Resident:

In the immediate future, Erie County/Erie County Sewer District No. 4 will be starting construction work on a sanitary sewer project on Losson Road known as the Aurora North Pump Station Elimination Sanitary Sewer Project, Contract No. 40RB. The project entails the installation of a 27" diameter PVC sanitary sewer pipe in the north travel lane of Losson Road from Borden Road to Transit Road. From there, the sanitary sewer will continue down William Street and traverse back lots to an existing pumping station on Aurora Street. Please see the attached map showing the location of the new sanitary sewer.

This new sanitary sewer will eliminate an existing pumping station on Aurora Street by diverting the flow by gravity via this new pipe to an existing large interceptor sewer at the corner of Losson and Borden. The existing pumping station was in need of major improvements to bring it up to current standards. The installation of this gravity sewer was found to be a more beneficial solution than the large capital expense associated with replacing the existing pump station. The construction of this new sanitary line will have no impact to your individual sewer connection and will cause no disruption to your sanitary service.

The majority of work along Losson Road between Borden and Transit will be conducted in the road and the public right of way. Construction will cause significant impacts to traffic on Losson Road and access to adjacent driveways. It is expected that the Contractor will shift all traffic to the south side of the road. The north side of the road will be closed during the installation of the sewer. Traffic in both directions would be maintained. On street parking will be prohibited during this time to allow the two way traffic to be maintained and to provide room for construction. Access to your driveway may be temporarily blocked for a period of time when the sanitary sewer pipe is installed in front of it. Access to your driveway will be provided at the end of each working day. Typical work hours will be 7:00 am to 5:00 pm.

44xi*

Construction associated with the installation of the sewer along Losson Road will likely be completed in 2015 or early 2016. The sewer trench will be restored to grade and the Contractor will be responsible for maintaining the area prior to final restoration. The Erie County Highway Department has placed a high priority to milling and repaving the entire road from curb to curb in 2016 after completion of our work. Allowing the sewer trench time to settle over winter will improve compaction and provide a better road base before final paving of the road.

The Contractor for this contract is Concrete Applied Technologies Corporation, better known as Catco. Catco has had numerous contracts with Erie County and has performed many large sanitary sewer projects in the area. Their work is known to be very good and we are confident that they will exhibit the same qualities on this project.

Erie County will have an inspector overseeing the construction of the sanitary sewer. This individual is a County employee who will be present during construction activities and can usually be identified as the person wearing the white hard hat.

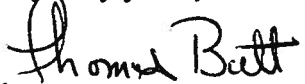

Please call myself or a person at a number listed below if you have any particular questions and/or concerns regarding the project.

- Erie County Project Manager – Tom Batt, P.E. 858-6145 or battt@erie.gov
- Erie County Assistant Project Manager – Jim Russell 858-8386 or russellj@erie.gov
- Erie County Ass't Deputy Commissioner – Jim Carr, P.E. 858-2126 or carrj@erie.gov
- Erie County Sewer District Manager – Rick Rehac 684-1234 or rehacr@erie.gov
- Catco Superintendent – Jeff Dunn 860-0358
- Emergencies – In case the above mentioned individuals cannot be reached, please contact our Erie County Sewer District No. 3 Operations Office at 823-8188.

Please do not call the Town of Cheektowaga or the Town of Lancaster as this is an Erie County project.

The installation of this sanitary sewer in your neighborhood is a difficult task. The sewer installation will at times be slow due to the depth and size of the sewer. Your cooperation, patience and understanding are appreciated and necessary for the successful completion of this project. Thank you for your anticipated cooperation in this matter.

Very truly yours,

Thomas M. Batt, P.E.
Senior Sanitary Engineer
